Description

Light Up the Night, Harness the Sun: Introducing the Cybernautt Astral SL03-200 Solar LED Light

Tired of complicated wiring, skyrocketing electricity bills, and unreliable outdoor lighting? Step into the future of sustainable illumination with the Cybernautt Astral SL03-200, a state-of-the-art solar-powered LED light engineered to deliver brilliant, dependable, and cost-free lighting for hours after dusk. This isn't just a light; it's a self-sufficient lighting system designed for the modern, eco-conscious homeowner and business.

Brilliant, Daylight-White Illumination for Maximum Visibility

The Astral SL03-200 is equipped with high-efficiency LED chips that produce a powerful, crisp white light with a 6000K (Kelvin) color temperature. This "Daylight Alert" spectrum is perfect for areas where clarity and visibility are paramount. It closely mimics natural daylight, reducing eye strain and ensuring true color representation. Whether you're securing a driveway, illuminating a parking lot, lighting up a garden path, or brightening a construction site, the Astral SL03-200 banishes shadows and dark spots with its vibrant, wide-angle glow.

Unmatched Power and Endurance: Built to Last

At the heart of the Astral SL03-200's exceptional performance is its robust power system.

High-Capacity Battery: A massive 3.2V / 12000mAh lithium-ion battery stores immense solar energy throughout the day. This ensures an exceptionally long working lifetime of up to 50,000 hours, providing illumination night after night, year after year, with minimal degradation in performance.

Efficient Solar Panel: The light features a powerful 6V 35W Polycrystalline solar panel. This high-grade panel efficiently converts sunlight into electricity, even on overcast days, ensuring a full charge for all-night operation.

Engineered for Reliability and Complete Peace of Mind

Cybernautt doesn't compromise on durability. The Astral SL03-200 is built to withstand the harshest elements.

IP66 Waterproof Rating: Fully protected against heavy rain, dust, snow, and high-pressure water jets. You can install it with absolute confidence in any outdoor environment, knowing it will perform flawlessly in all weather conditions, season after season.

Professional Lighting Solutions Service: Beyond the product itself, Cybernautt offers expert lighting and circuitry design services. This ensures you get the most optimal lighting solution tailored to your specific spatial and functional needs, whether for residential security or commercial applications.

Why Choose the Cybernautt Astral SL03-200 Solar Light?

Slash Your Energy Bills: Eliminate electricity costs for outdoor lighting entirely.

Eco-Friendly & Sustainable: Reduce your carbon footprint by using clean, renewable solar energy.

Easy Installation: No need for expensive electricians or complex wiring. Install anywhere the sun reaches.

Automatic Operation: Built-in light sensor automatically turns the light on at dusk and off at dawn.

Ultra-Durable Construction: Designed for long-term outdoor use with minimal maintenance.

Ideal For: Homeowners, Municipalities, Businesses, Hotels, Resorts, Farms, and Industrial Sites.

Invest in relentless, renewable light. Choose the Cybernautt Astral SL03-200 Solar LED Light—where superior performance meets intelligent, sustainable design.

Technical Specifications

Model	Astral SL03-200
Color Temperature(CCT)	6000K (Daylight Alert)
Power Supply	Solar
Lamp Luminous Flux(lm)	3.2V/10000mAh
Input Voltage(V)	3.2V/10000mAh
Battery	3.2V/12000mAh
Working Lifetime(Hour)	50000H
Lighting solutions service	Lighting and circuitry design
Waterproof	IP66
Solar panel	6V 35W Polycrystalline
Power	200W
