Item Dimensions LxWxH	40 x 115 x 74 Millimeters
Item Weight	28g
Resolution	1080p Full HD Pixels
Power Source	Battery Powered backup upto 2hrs

Description

Design: The CN100 Bodyworn Camera is generally compact and durable, intended for attachment to uniforms or gear.

Recording Capabilities: It typically provides high-definition video recording and often includes features such as wide-angle lenses and pre-event recording (which buffers footage before activation).

Data Management: You can use memory card of upto 32GB to secure your recorded data.

1080P High-Definition Camera and 140-Degree

Rotating Lens: The device is outfitted with high-definition sensors and large apertures, enhancing clarity and enriching image quality, capturing clear 1080P high-definition video clips.
