Description

Introducing the Cybernautt Dash Cam – your ultimate driving partner for a safer road experience! This isn't just any dash cam; it's loaded with smart features that elevate your journey. Here's why Cybernautt is the perfect choice for you:

2-Inch IPS Screen : Enjoy a brilliant 2-inch IPS display that makes navigating and reviewing your recorded clips a breeze. Everything is clear and easy to see!

Advanced Night Technology : Drive assuredly at night with Cybernautt's cutting-edge night vision. Capture sharp, detailed footage even in dim lighting, keeping you secure no matter when you hit the road.

Triple Lens Design : With front, rear, and interior lenses, Cybernautt has all angles covered. You can relax knowing that your vehicle is fully monitored from every direction.

24-Hour Parking Mode: Cybernautt always has your back – even when you're not around. Its 24-hour parking mode activates on motion detection, safeguarding your car at all hours.

HD 1080P Resolution: Get ready for stunning video quality with Cybernautt's HD 1080P resolution. Every detail is recorded in brilliant clarity, providing crucial evidence if you need it.

Motion Detection Support : Add peace of mind with the motion detection feature. Cybernautt automatically starts recording when it senses movement, ensuring important events are captured while you're away.

Front Lens 170 Degrees : With a wide 170-degree front lens, Cybernautt captures more of the road and surroundings, so nothing slips by unnoticed.

More than just a recorder, the Cybernautt Dash Cam is your protector on the road. Drive with peace of mind knowing that with its reliable features and performance, you're in good hands!
