* Support AI ADAS Alarm: ADAS,LDWS,FCWS Alarm (Default)	✓
* Support AI DSM Alarm: Fatigue, Calling, Smoking , distraction , seatbelt	✓

Description

Dependable Accident Witness

The high-speed 4G network guarantees smooth uploads of images, videos, and GPS information to the cloud for later evidence assessment.

Dual-Camera Recording with AI DMS and ADAS

The dual AI dash cam records both the road ahead and the interior in crystal-clear quality at 1080P+720P @30fps, ensuring extra safety while driving.

Remote Video and Audio Monitoring

This device features 1080P HD video, a microphone, and a speaker. Experience clear live footage and oversee your vehicle from anywhere, anytime.

Ample Storage Capacity

Support for 1 TF card allows up to 512GB of video storage, providing plenty of space for your requirements.

Flexible Connection Interface

There's 1 RS232 interface for connecting various sensors—fuel, temperature, RFID, and panic button—easily.

Vehicle Immobilization

Leverage MettaCam to remotely cut off power to your vehicle, enhancing fleet security and providing a strong anti-theft mechanism for your fleet.
