Description

REAL-TIME MONITORING & SD CARD SUPPORT

Get ready to start in seconds! By inserting a 128 GB SD card (sold separately), you can effortlessly store nearly 30 days of video footage. With loop recording, enjoy live video feeds from anywhere in the world.

IMPROVED NIGHT VISION

The device is equipped with built-in lights that effectively deter potential intruders from afar. Choose from three modes: glowing infrared, bright lights, or Auto mode. Plus, the robust two-way speaker and microphone allow for communication, enabling you to issue commands remotely.

WATER-RESISTANT & WEATHERPROOF

Boasting an IP66 waterproof rating, this camera is crafted to endure even the harshest weather conditions. Designed for outdoor use, it delivers full HD resolution for sharp and detailed footage.

MOTION DETECTION & AUTO TRACKING

Equipped with advanced AI, this camera detects motion and offers options for motion-triggered recordings. Its intelligent auto-tracking feature seamlessly follows moving subjects. Customize alarms to enhance your
