Technical Specifications

Model number	K3D
name	4G Sim support 3MP Night Color Dome camera
sensor	4 million 1/2.9" 3MP ultra low illumination CMOS sensor
Video processing	H.265/H.264 video coding, support dual stream, video compression rate 128Kbps-8192bps continuous adjustable
Image output	Main stream :2560*1440, 1-25 frames/second, 1-30 frames/second
Image Output	Substreams :704*576, 640*480, 640*360, 352*288, 1-30 frames per second
Audio processing	G.711 codec standard, support audio and video synchronization
Sim Network Support	Cellular 4G
Business function	Support OSD, support real-time video transmission, support intelligent detection and alarm linkage
client	support iOS, Android mobile phone client
Other functions	Human detection acousto-optic alarm two-way voice intercom
ONVIF protocol	support
Business function	Support OSD, support real-time video transmission, support intelligent detection and alarm linkage, support "tuya" cloud service
client	support iOS, Android mobile phone client
Other functions	Humanoid detection, sound and light alarm, humanoid tracking

Description

Experience seamless connectivity with 4G SIM support, enhanced infrared night vision, motion detection, and adjustable dual lighting.

Enjoy global video streaming through 3MP camera and 4G Cellular SIM, with adherence to the standard ONVIF protocol. Features include two-way audio, alarm notifications, intercom capabilities, and real-time video encoding accessible via your smartphone.

Take advantage of cloud storage alongside local TF card storage (supporting up to 256GB).

Unlock smart functionalities such as human detection, customizable activity zones, and voice detection for added security.

Enjoy Two-Way Audio and Motion Detection: This indoor dome camera comes equipped with a built-in microphone and powerful speaker, enabling you to communicate clearly with guests and family no matter where you are.
