Description

LIVE VIEW & SD CARD SUPPORT

Get ready to roll within minutes! With the option to insert a 128 GB SD card (sold separately), you can effortlessly store nearly a month's worth of video footage. Featuring loop recording, you can access live views from anywhere in the world.

SMART NIGHT VISION

Equipped with illuminating lights, this feature works wonders if you need to deter unwanted intruders from afar. Choose from three modes—glowing IR, bright lights, or Auto mode. You'll also appreciate the powerful speaker and microphone that enable two-way communication, allowing you to issue commands from any location.

SIM CARD SLOT

No Wi-Fi? No problem! Simply insert any SIM card into this camera for immediate live access. It operates as a standalone system with extensive coverage, enhanced by its PTZ function. Effortlessly rotate the camera up/down and left/right through the app, eliminating the need for complicated wiring.

WATERPROOF & ALL-WEATHER

With an IP66 waterproof rating, this camera is built to endure even the harshest weather conditions. Specifically designed for outdoor use, it delivers full HD resolution for clear and detailed video footage.

MOTION DETECTION & AUTOTRACKING

This camera employs advanced AI to detect motion, with options for motion-triggered recordings. Plus, its intelligent auto-tracking system allows it to seamlessly follow subjects. Customize alarms to fit your security needs!
