Technical Specification

Model:	Cybernautt K4S 4G 4MP Dual lens Indoor Camera
APP:	V380 PRO
Chip:	AK3918AV100N
Resolution:	4MP
Sensor:	1/2.9" Progressive Scan CMOS (GC3003)
Pan-tilt:	Horizontal: 355° Vertical: 90°
Lens:	3.6mm F2.3
Network connection:	Support LTE 4G network-SIM traffic card LTE-FDD: B1/3/5/8 LTE-TDD:B34/38/39/40/41
Night Version:	Switch automatic, 10-15 Meters (varies from environment)
Audio:	Built-in microphone and speaker, support two-way real-time audio transmission
Alarm:	Mobile detection, mobile tracking, and humanoid detection
Storage:	TF Card (Max 128G) ; Cloud storage (optional)
Power input:	Power supply/DC 5V/2A (maximum)
Work environment:	Working temperature:-10°C ~ + 50°C Working Humidity: ≤75%RH

Description

Two-way communication enables you to connect with your loved ones, even when they're away from home. The 4G SIM-based security camera captures snapshots and records 10-second videos automatically upon detecting motion. Alert notifications are promptly sent to your mobile device, ensuring your home remains secure in real-time.

This 4G SIM-based dual security camera effortlessly switches monitoring angles with a 355° horizontal and 90° vertical rotation range, allowing for a broader view. You can control the lens direction using the V380 Camera app on your smartphone.

With the dual security camera, you can enjoy peace of mind. Featuring an advanced Starlight CMOS sensor, this safety camera delivers clear images and videos even in dim lighting, providing visibility in your home up to 10 meters away.

The dual security CCTV camera features smart auto-tracking, rotating with movement. You'll receive alarm notifications on your mobile device promptly if anyone approaches your property.

The intelligent dual-lens indoor CCTV camera boasts a high resolution of 1920*1080p (2MP+2MP) for true 1080p full HD viewing, allowing you to see crystal-clear videos. The pan/tilt 360° monitoring ensures seamless protection both day and night.
