## Description

#### Experience Cinematic Brilliance at Home with Cybernautt PJ04 4K Projector

Transform your living room into a home theater with the Cybernautt PJ04 4K Projector. Designed for immersive home entertainment, this projector delivers stunning 1080\*720 resolution with 4K support, ensuring crystal-clear visuals for movies, gaming, and more. With 2500 lumens of brightness, enjoy vibrant and sharp images even in well-lit environments.

The 120-inch large screen display brings your favorite content to life, perfect for family movie nights or gaming marathons. Powered by Android 11, the Cybernautt PJ04 offers seamless streaming, app compatibility, and smart functionality, making it a versatile addition to your home setup.

Built to last, the projector boasts an impressive 12,000-hour lamp life, ensuring long-lasting performance. Whether you're watching movies, streaming shows, or presenting work, the Cybernautt PJ04 is your ultimate entertainment companion.

#### **Key Features:**

- 4K Supported Resolution for ultra-sharp visuals
- 2500 Lumens for bright, vivid images
- Android 11 OS for smart streaming and app access
- 120-inch Large Screen for a true cinematic experience
- 12,000-hour Lamp Life for durability

Upgrade your home entertainment with the Cybernautt PJO4 4K Projector – the perfect blend of performance, clarity, and convenience. Ideal for movie buffs, gamers, and families in India, this projector is your gateway to a world of big-screen fun.
