Description

FULL HD WIFI CAMERA & NIGHT VISION

The Cybernautt V2K WiFi camera is equipped with a 2 MP (CMOS) sensor that delivers stunningly clear and detailed footage. Its innovative full-color night vision transitions seamlessly to infrared mode in low light, guaranteeing 24/7 surveillance and security for your home or workplace.

SMART PTZ CONTROL

Experience unparalleled coverage with the Cybernautt V2K's pan-tilt functionality, allowing the camera to rotate 355° horizontally and 90° vertically, ensuring no corner is left unmonitored.

ADVANCED MOTION DETECTION AND ALARM

The Cybernautt V2K camera features state-of-the-art motion detection that instantly alerts you with notifications and shares recorded footage on your connected device as soon as activity is detected.

FLEXIBLE STORAGE OPTIONS

The Cybernautt V2K supports up to 256GB of storage with a TF card (not included), giving you plenty of room for your recorded videos. Plus, it offers optional cloud storage for added flexibility and peace of mind.
