Technical Specifications

Model	V20
Bottom illumination	color: 0.01lux Black and white: 0.001lux
Video encoding	H265
Image output	1920*1080 , 2MP
Lens	4mm
Noise reduction	support 2D/3D noise reduction
Audio	support for two-way intercom and one-way monitoring
Fill light	infrared fill light , white Leds for Night Color Vision
Pan	tilt rotates 355 degrees horizontally and 90 degrees vertically
Video storage	support local maximum 128G TF card and cloud storage
Networking mode	2.4G WIFI
Intelligent analysis	human shape detection
Mobile monitoring	IOS/Android app: V380 app
Power supply	DC5V
Power adapter	AC220- DC5V1.5A

Description

Introducing the Pan/Tilt Smart Mini PT Camera

Enjoy 355 degrees of horizontal rotation and 90 degrees of vertical rotation for full coverage. This innovative camera features a built-in high-sensitivity microphone and speaker for seamless two-way audio communication, along with an integrated PIR sensor for enhanced motion detection.

Smart Detection and Two-Way Communication

Utilizing advanced AI algorithms, this security camera distinguishes between humans and animals. When motion is detected, it automatically records the event and sends real-time notifications to your smartphone. Activate the spotlight or sound an alarm through the app, and communicate with potential intruders using the built-in mic and speaker.

Secure Cloud/SD Card Storage

Save recordings to a local SD card (up to 128GB, not included) or utilize Cloud Service for easy access and playback via the V380 app. With global internet connectivity, you can invite family or friends to share and enjoy live viewing together.

WATCH OVER YOUR SPACE

Experience high-definition night vision with an integrated IR lens and white LEDs.

MOTION DETECTION

Receive instant alerts whenever motion is sensed.
