Description

Cybernautt X3D: The Best Solar-Powered 4MP AI Security Camera for Ultimate Home and Industrial Protection

Upgrade your security with the Cybernautt X3D, the best solar-powered 4MP AI security camera designed to safeguard your home or industrial premises. This solar battery camera combines cutting-edge technology with eco-friendly energy, ensuring uninterrupted surveillance without the need for frequent recharging. With its 4MP HD resolution, the Cybernautt X3D delivers crystal-clear footage, day or night, automatically switching to color night mode with LEDs or IR night mode when light fades.

Equipped with outstanding AI capabilities, this AI monitoring camera offers human detection and tracking, customizable monitoring zones, and motion detection push notifications to keep you informed of any activity. The pan and tilt feature allows the camera to cover every nook and corner, moving horizontally and vertically via the app for complete 360° coverage.

Key features include:

Solar-powered battery camera: Harness solar energy for continuous operation.

AI security camera: Advanced human detection and tracking for precise monitoring.

4MP HD resolution: Crisp, detailed footage in all lighting conditions.

Two-way communication: Communicate remotely via the app.

External storage up to 256GB: Store footage securely.

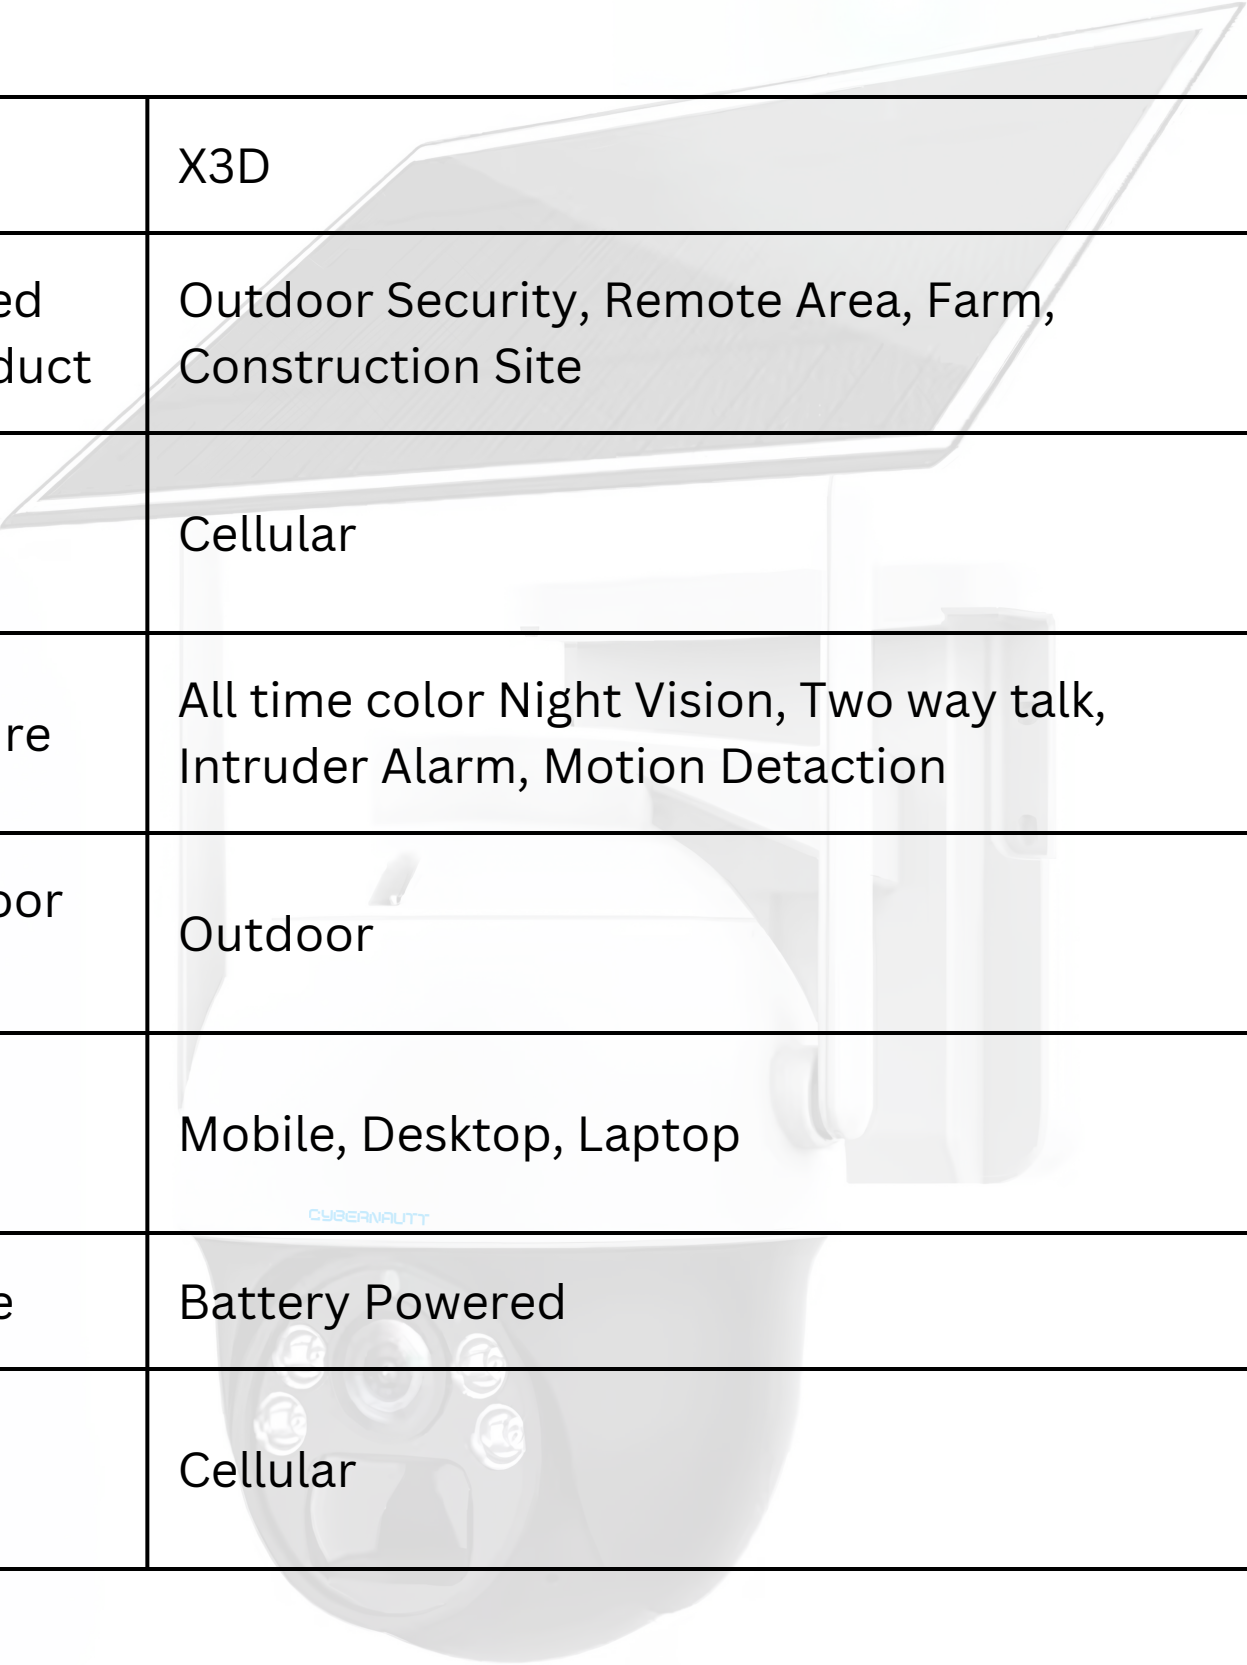

App-controlled remote viewing: Monitor your property from anywhere in the world.

Alarm system: Deter intruders with instant alerts.

Whether you need a home security camera, an outdoor camera, or an industrial camera, the Cybernautt X3D is the best solar-powered CCTV camera for all your surveillance needs. It's also compatible as a 4G SIM camera or solar SIM camera, making it ideal for remote locations without Wi-Fi.

Experience the future of security with the Cybernautt X3D, the best AI camera for home security and industrial surveillance. Protect what matters most with the best solar 4G CCTV camera on the market

TECHNICAL SPECIFICATIONS

Model Name	X3D
Recommended Uses For Product	Outdoor Security, Remote Area, Farm, Construction Site
Connectivity Technology	Cellular
Special Feature	All time color Night Vision, Two way talk, Intruder Alarm, Motion Detaction
Indoor/Outdoor Usage	Outdoor
Compatible Devices	Mobile, Desktop, Laptop
Power Source	Battery Powered
Connectivity Protocol	Cellular
