| System structure           | Embedded Linux system, ARM chip structure                                                                                                                                                                                                                                                                                                       |

# Description

## **Cybernautt X4D2 Dual dome 4mp WiFi Camera**

1. 4MP pixel, H.265
2. Support for cloud video recording
3. Support WiFi connection, AP hot spot, two-way voice intercom, voice alarm, picture push, and TF card video recording
4. With high power speaker
5. Dual lens picture push
