Product name	Cybernautt X40 Dual lens 6 mp 4G Solar Camera
Video compressed format:	H.264+/H.265
Detection method:	PIR + Radar dual induction detection
Detection distance:	0~12M
Detection angle:	120°
Pan-tilt:	Horizontal: 355 °, vertical: 120°
Rotate speed	Horizontal 55°/seconds, vertical 40°/seconds
Infrared Led:	Infrared LED distance: 30M ,effective distance :10M
White Led:	White LED distance: 30M, effective distance :10M
Local storage:	TF card(Max 256G)
Solar panel power:	7.5W
Battery capacity	Built in 10800mah battery
Standby power	5 mA
Working environment:	IP66 Waterproof,can use indoor and outdoor
Working temperature:	-30°~+60°
Two way audio	Support
Motion detection alarm	PIR + mobile detection + humanoid detection multiple intelligent detection, effective distance 10 meters
Night Vision	Support
Multi-user	Support
Product Size (mm)	camera size : 250*90mmsolar panel size : 237*171mm
Packing Size / Weight	25*20*16cm/1.85kg

Summary

The outdoor security camera is powered by a solar panel, requires charging through its efficient 7.5W mono-silicon panel in sunlight. It features a resolution of 6mp with built-in LEDs for automatic night vision, allowing real-time remote monitoring via a mobile app. The camera utilizes a Smart PIR Motion Detection system that alerts you upon detecting human or pet movement and records only during such events. Additionally, it includes two-way audio for real-time conversations and has an IP66 rating, making it weatherproof and capable of functioning in extreme temperatures. Suitable for various settings such as homes, farms, and construction sites.
