

Dual Lens Three Views

360° Panoramic View

This camera adopts a dual lens three view design. The panorama camera has a wide-angle field of view, and the tracking camera automatically zooms and tracks the target. It can rotate up down left, and right while guarding multiple different areas.

Solar+Battery Powered, Ultra Long Endurance

It comes with large capacity rechargeable batteries and solar panels that can generate electricity under low light conditions. There is no need to worry about power outages on cloudy and rainy days.

Two-way Audio

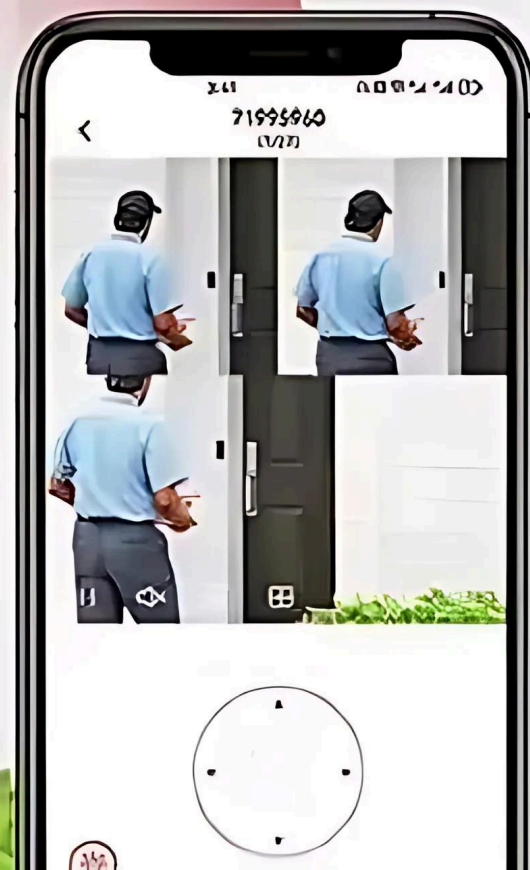

Built-in mic & speaker to listen in and talk back in real time

Okay, come and pick it up immediately. 🗣️

Hello, your courier has arrived, 🗣️

4G Dual Lens Three Views Network Camera

X4S

Solar+Battery Powered
Low Power Consumption Design
Three Views in One Screen
Three Cameras in One

Remote Monitoring without Wired
Network or Electricity

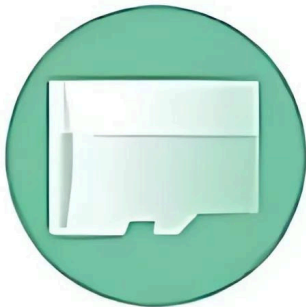

24-hour video storage

Automatic recording, view playback at any time,
have cloud storage and TF card, not afraid of loss

Humanoid Detection Sound Light Alarm

When it detects suspicious people or objects, the alarm information will be immediately pushed to the users phone, and the siren and spotlight will be activated to warn off the unwelcome, thereby improving the security of the monitoring area.

Technical Specifications

Model / Description	Cybernautt X4S 4G 4MP Solar Camera
Sensor	CMOS
Function	Waterproof / Weatherproof, PAN-TILT, NIGHT VISION
Data Storage Options	Micro SD card upto 128Gb ,Intelligent cloud storage
Application	Outdoor
Country Of Origin	China
Video Compression Format	H.265
Resolution	1920*2161P
Special Features	PAN-TILT, Built-in Siren, NIGHT VISION, Two-way Audio, Human Motion Tracking, Motion Detection
Product Name	4G Solar Camera
Camera Resolution	1920*2161P / 4.0MP
IR Distance	35m
Lens	4mm
Waterproof	IP66 Water-proof
APP	V380 Pro
Power Supply	DC12V Solar

Description

Introducing the Pan/Tilt Smart Mini PT 4-G Camera

Enjoy 350 degrees of horizontal rotation and 90 degrees of vertical rotation for full coverage. This innovative camera features a built-in high-sensitivity microphone and speaker for seamless two-way audio communication, along with an integrated PIR sensor for enhanced motion detection.

Smart Detection and Two-Way Communication

Utilizing advanced PIR motion sensing and AI algorithms, this security camera distinguishes between humans and animals. When motion is detected, it automatically records the event and sends real-time notifications to your smartphone. Activate the spotlight or sound an alarm through the app, and communicate with potential intruders using the built-in mic and speaker.

Dual Lens Design

With dual lenses offering a 355-degree panoramic perspective, you'll have an expansive view of your surroundings.

4-G SIM Compatible

This camera supports 4-G SIM cards, allowing you to access and control your security system remotely through a mobile app (Airtel Recommended) .

Solar Powered for Continuous Operation

Equipped with a solar panel, this camera operates continuously without needing an external power source, making it perfect for off-grid locations.

Cellular Network & No WiFi Required

Operating where 4-G LTE coverage is available, the camera features a 7W solar panel and a 12000mAh battery, ensuring uninterrupted, wire-free outdoor security for your garden, farm, or construction site.

Battery Backup

The built-in 12000mAh battery provides up to 7 days of backup, giving you peace of mind when power is scarce.

Secure Cloud/SD Card Storage

Save recordings to a local SD card (up to 128GB, not included) or utilize Cloud Service for easy access and playback via the V380 app. With global internet connectivity, you can invite family or friends to share and enjoy live viewing together.
