Video recording can be conducted using either an SD card or cloud storage, with the latter option requiring a purchase within the application

Description

Dual 3MP High-Resolution Lenses: The Cybernautt camera is equipped with two 3MP lenses, providing clear, high-definition video for wide-area surveillance and detailed monitoring from multiple angles.

4G Wireless Connectivity: With 4G LTE support, the camera offers seamless remote access and live streaming without the need for a wired internet connection, ideal for off-grid locations or areas with limited connectivity.

Pan-Tilt and Automatic Tracking Control (ATC): The camera features remote Pan-Tilt functionality for adjustable viewing angles, combined with ATC for automatic object tracking, ensuring comprehensive coverage and enhanced surveillance.

Solar-Powered Efficiency: Powered by a built-in solar panel, the camera operates sustainably and efficiently in outdoor environments, reducing the need for frequent battery replacements or reliance on external power sources.

Durable and Weatherproof: Designed for harsh outdoor conditions, the Cybernautt camera is built to withstand extreme weather, making it a reliable solution for 24/7 surveillance in various environments such as farms, construction sites, and rural areas.

Technical Specification

4mm + 4mm Fixed Lens

Horizontal Movement Range Pan 270° & Vertical Movement Range
Tilt 90°

Dual monitoring. One camera for monitoring, One camera for Pan-Tilt
monitoring.

Built-in high-sensitivity Mic and Speaker, for Full Duplex Audio
Intercomm

Mobile Notification on Human & Motion Detection
Support 10X Digital Zoom

Can set 6 preset points favorite locations
Support Micro SD Card upto 256GB & Cloud Storage(Optional)

Night Vision and Full Color Modes

Monitoring: Mobile/PC Software (TrueCloud)

4G Connection, QR code camera configuration with mobile/PC

Built-in Battery 15600mAh rechargeable lithium battery with 7 Watt
Solar Panel
1 Year warranty
