Description

Cybernautt X7S Solar-Powered AI Security Camera – The Best Solar Battery Camera for Ultimate Home and Industrial Security

Upgrade your security with the Cybernautt X7S, the best solar-powered battery camera designed to provide unmatched surveillance for your home, office, or industrial spaces. This cutting-edge AI security camera features 2 lenses with 3 views, ensuring complete coverage of every nook and corner. With a combined 6MP resolution (3MP for each camera), this outdoor camera delivers crystal-clear HD footage, day or night.

Equipped with advanced AI monitoring capabilities, the Cybernautt X7S offers human detection and tracking, customizable monitoring zones, and motion detection push notifications to keep you informed of any activity. Its alarm system adds an extra layer of security, deterring intruders effectively.

This solar camera is powered by renewable energy, making it eco-friendly and cost-effective. The built-in battery ensures uninterrupted operation, even during power outages. The camera automatically switches to color night mode with LEDs or IR night mode when light levels drop, providing 24/7 surveillance.

The Cybernautt X7S is packed with features like pan and tilt functionality, allowing you to control one camera's movement horizontally and vertically via the app. The other two cameras can be adjusted manually for flexible monitoring. Enjoy two-way communication, external storage support up to 128GB, and remote viewing from anywhere in the world through the user-friendly app.

Whether you need a home security camera, an industrial camera, or a 4G CCTV camera, the Cybernautt X7S is the perfect choice. It's also compatible as a SIM camera or 4G SIM camera, ensuring connectivity even in remote areas.

Key Features:

- Solar-powered battery camera with eco-friendly energy
- 2 lenses with 3 views for complete coverage
- 6MP combined resolution (3MP per camera)
- Advanced AI camera capabilities: human detection, tracking, and customizable zones
- Pan and tilt functionality for flexible monitoring
- Color night vision with LEDs and IR night mode
- Two-way communication and motion detection alerts
- Supports external storage up to 128GB
- App-controlled remote viewing from anywhere
- Compatible as a 4G SIM CCTV camera for remote areas

Choose the Cybernautt X7S, the best solar 4G CCTV camera for reliable, intelligent, and eco-conscious security. Protect your property with the ultimate AI monitoring camera that combines innovation, convenience, and peace of mind.

TECHNICAL SPECIFICATIONS

Product model	X7S	Image sensor	1/2.9" Progressive Scan CMOS (GC3003*2)
Working temperature	-10℃ ~ 50℃	Resolution	3MP + 3MP
Detection method	PIR + Radar dual induction detection	Video compression standard	H.265/15FPS
Solar panel power	7W	Pan-tilt	Horizontal:355° Vertical:90°
Minimum illumination	minimum illumination 0.00001LUX	IR Leds	2PCS Infrared LED + 10PCS White LED
Supply voltage	5V 2A adapter,solar panel (Type C interface)+ 3.7V 18650 battery	Audio input and output	Input:built in microphone;output:built-in speaker
Battery capacity	Built-in 8000mAh battery	Local storage	TF Card (Max 128G) ; Cloud storage
Alarm method	Double induction confirmation and push alarm information mobile phone	White Led	White LED distance: 20M, effective distance: 8M
network	4G	Infrared Led	Infrared LED distance: 30M ,effective distance :10M
Power Consumption	Wake up:1.35W(5V 270mAh) ,work 24hours continuously Sleeping: 0.035W(3.7V 9.5MAh),Standby for 1 month. Open Infrared Led:3W,Openwhite led:4W	Fill light distance	IR-CUT switch Automatic, about 8meters (It varies from environment) White Led can be remote control via APP:①Turn ON ②Turn OFF ③Auto (In automatic mode, the infrared light will be turned ON after the IR-cut switch to night vision auto , it can intelligentlydetected human body, and Turn ON/OFF the White light intelligently)
