Description

Cybernautt Nebula SL04-120: Harness the Sun for Powerful, All-Weather Illumination

Welcome to the future of sustainable outdoor lighting with the Cybernautt Nebula SL04-120. This high-performance solar LED light is engineered to provide brilliant, reliable, and eco-friendly illumination for your garden, pathway, driveway, or commercial outdoor space. Designed for those who refuse to compromise on quality, performance, or durability, the Nebula SL04-120 stands as a testament to superior lighting and circuitry design.

Powerful 120W Solar LED Brilliance
At the heart of the Nebula SL04-120 is a powerful 120W LED system that delivers exceptional brightness, banishing darkness from even the largest outdoor areas. Unlike traditional lights, it emits a pure, clear 6000k Daylight Alert color temperature. This warm white light is ideal for creating a welcoming and secure atmosphere, enhancing visibility without the harsh glare of cooler temperatures, making it perfect for both ambient and security lighting applications.

Unmatched Independence with Advanced Solar Technology
Say goodbye to complicated wiring and soaring electricity bills. The Nebula SL04-120 is a completely self-sufficient solar-powered lighting solution. It is equipped with a highly efficient 6V 7W Polycrystalline solar panel that aggressively soaks up sunlight throughout the day. This advanced panel ensures a rapid and complete charge for the integrated, high-capacity 5000mAh battery. This powerful combination guarantees your light will shine brightly throughout the night, offering up to 50,000 hours of maintenance-free operation. Enjoy years of stunning light with virtually no operating cost.

Built to Endure the Elements with IP65 Waterproof Rating
We believe outdoor lighting should be worry-free. The Cybernautt Nebula is built to withstand the toughest conditions with a superior IP65 waterproof rating. This means it is completely protected against dust ingress and low-pressure water jets from any direction. Whether it's a torrential downpour, blistering heat, or freezing snow, this light is engineered for a working temperature range of -40°C to 50°C. Install it with confidence, knowing it will perform flawlessly season after season, year after year.

Engineered for Longevity and Reliability

Every aspect of the Nebula SL04-120 is designed for durability and user satisfaction:
Massive 10000mAh Battery: Stores ample solar energy for extended illumination, even after several cloudy days.
50,000-Hour Lifetime: The premium LED chips provide an incredibly long service life, drastically reducing the need for replacements.
Low Voltage Operation (DC 6V): Ensures safe installation and operation around children and pets.
Robust Construction: Designed to resist corrosion, impact, and UV damage.

Ideal Applications for Your Solar Light
The Cybernautt Nebula SL04-120 is incredibly versatile. Its powerful output and robust design make it the perfect choice for:

Security Lighting: Illuminate dark corners, entrances, and perimeters to enhance property security.
Garden & Landscape Lighting: Accentuate your garden's beauty and light up pathways for safe navigation.
Driveway & Gate Lighting: Provide a clear and well-lit path for vehicles and guests.
Farm & Ranch Lighting: A perfect, wire-free solution for sheds, barns, and large outdoor areas.
Camping & RV Sites: offers powerful, off-grid lighting for remote locations.

Make the sustainable switch today. Choose the Cybernautt Nebula SL04-120 Solar LED Light—where cutting-edge technology, rugged durability, and elegant design converge to create the ultimate hands-free outdoor lighting solution.

Technical Specifications

Model	Nebula SL04-120
Color Temperature(CCT)	6000K (Daylight Alert)
Power Supply	Solar
Working Temperature(℃)	-40 - 50C
Input Voltage(V)	DC 6V
Battery	10000mAh
Working Lifetime(Hour)	50000H
Lighting solutions service	Lighting and circuitry design
Waterproof	IP65
Solar panel	6v 7w Polycrystalline
Power	120W
