Description

Light Up Your Nights, Powerfully and Sustainably with the Cybernautt Vega SL05-30 Solar LED Flood Light

Upgrade your outdoor security and illumination with the Cybernautt Vega SL05-30, a high-performance solar-powered LED light designed for maximum brightness and reliability. This 30W solar flood light harnesses the sun's energy to provide brilliant, cost-effective lighting for your driveway, garden, yard, pathway, or commercial signage. Engineered for endurance and efficiency, the Vega SL05-30 eliminates complicated wiring and reduces your electricity bills. Its automatic dusk-to-dawn operation ensures your property is securely lit all night, every night.

Key Features & Benefits:

Powerful 30W Solar LED Output: Experience exceptional brightness with 5000 lumens of intense, wide-angle light, perfect for security and illuminating large outdoor areas.

High-Efficiency Solar Panel: Equipped with a 6V 7W polycrystalline solar panel that rapidly converts sunlight into energy, ensuring a full night's illumination after a day of charging.

Crisp Daylight White Illumination: A 6000K color temperature provides a bright, alert, and clear daylight-white light that enhances visibility and safety around your property.

Built to Last: With an incredible 50,000-hour lifespan, this LED light is a long-term lighting solution that requires minimal maintenance.

Superior Weather Resistance: Rated IP65, the fixture is fully protected against dust and jets of water from any direction, making it ideal for all weather conditions year-round.

Wide Operating Range: Reliably performs in temperatures from -10°C to 50°C, ensuring consistent operation through hot summers and cold winters.

Easy & Flexible Installation: As a completely wireless unit, installation is quick and simple. Place it anywhere with direct sunlight for optimal performance.

Ideal For: Home Security Lighting, Garden and Yard Illumination, Driveway and Pathway Lighting, Farm and Barn Areas, Highlighting Architectural Features, and Commercial/Industrial Outdoor Security.

Choose the Cybernautt Vega SL05-30 Solar LED Light—the smart, eco-friendly, and powerful choice for all your outdoor lighting needs.

Technical Specifications

Model	Vega SL05-30
Color Temperature(CCT)	6000K (Daylight Alert)
Power Supply	Solar
Working Temperature(°C)	-10 - 50
Input Voltage(V)	DC 6V
Lamp Luminous Efficiency(lm/w)	1000(M/W)
Lifespan	50000h
Color Rendering Index(Ra)	80(Ra)
Waterproof	IP65
Solar panel	6v 7w Polycrystalline
Power	30W
