Easy networking simple and fast

1 Power on the camera

2 Scan the QR code in the manual, download the app, register an account and log in, connect the camera to the power

3 Scan the QR code on the camera with app Follow the prompts to complete networking

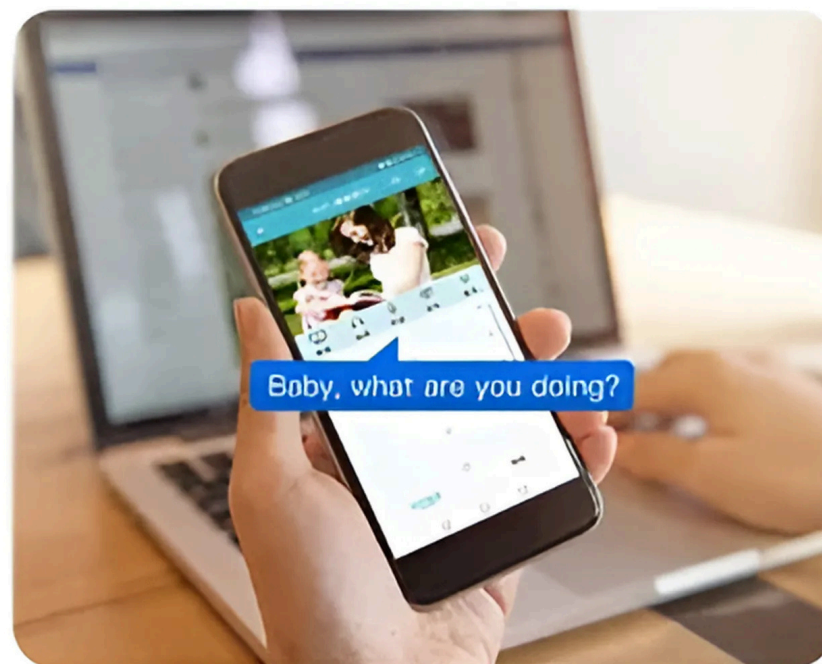

AI Humanoid detection

When there is a humanoid movement in the monitoring area, the alarm message will be pushed to the mobile phone immediately. Reduce false positives caused by common mosquitoes, tree shaking, etc. Improve the accuracy of alerts

Two-way talk

Built-in speaker and high-sensitivity microphone for convenient communication anytime, anywhere

Synchronous recording, secure storage

Supports real-time viewing of multiple terminals on mobile phone, remote monitoring and multiple terminals viewing

Cloud Storage

Supports TF Card
(up to 256G)

Easy networking, simple and fast

1

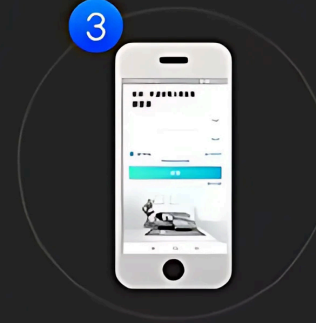

Power on the camera.

2

Scan the QR code in the manual,
download the app,
register an account and log in

3

Scan the QR code on the camera
with app, Follow the
prompts to complete networking

Encrypt privacy Ensure security

Four protection systems to prevent privacy leakage

Prompt for remote login of account

Software will record the region where you usually log in to your account. Once the account logs in in other regions, the software will prompt the account to log in in different places.

Mobile phone and email binding

Account can bind email account and mobile phone number. You can receive verification code through email or mobile phone and change account password.

Pan & Tilt

Rotatable pan/tilt design, Pan 350° and Tilt 90°
Broad vision, everything is in sight

Sound and light drive theft

When a suspicious moving object is detected, the device will automatically capture the suspicious image and issue a high-decibel siren to drive away. And automatically flash the LED light to alarm and push the alarm information to the mobile APP

Delimitation detection alarm

When there is a humanoid movement in the monitoring area, the alarm message will be pushed to the mobile phone immediately.

Abnormal records can be checked at any time

The audio, video and video of abnormal situations will be automatically recorded and stored. There are backups for safety, and important information is not omitted. Support memory card and cloud video storage, flexible playback and easy checking.

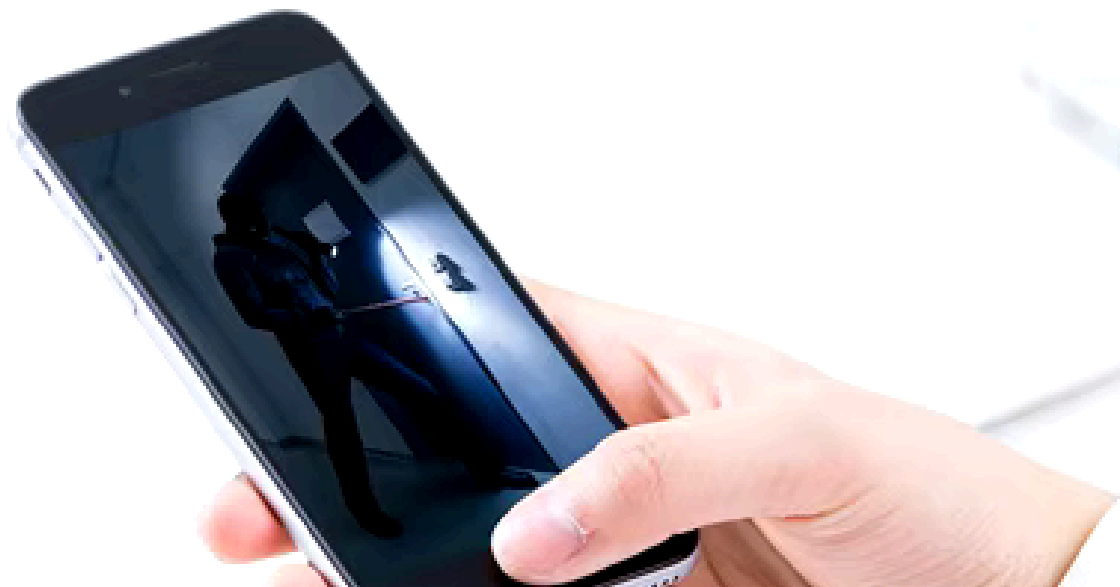

With TF memory card
Maximum support 256G

With cloud storage

Description

350° Coverage

Xuga X05A-K 4G outdoor surveillance camera boasts an impressive 90-degree vertical rotation and an expansive 350-degree horizontal rotation. You can conveniently control the camera remotely to ensure there are no blind spots in your surveillance.

Two-Way Audio

Equipped with a built-in microphone and speaker, Xuga X05A-K 4G outdoor camera allows for real-time conversations between you and your visitors, enhancing your home security experience.

Vibrant Night Vision

Xuga X05A-K 4G dome camera features a powerful floodlight that delivers crystal-clear images even in pitch darkness. With versatile night vision modes—including infrared, full color, and automatic—you can enjoy detail at any hour. Plus, zoom in up to four times to observe every detail.

4G Sim Connectivity and Storage Options

The 4G outdoor security system operates on 4G Connectivity and features a storage expansion slot compatible with microSD cards up to 256 GB (not included). It also offers secure, encrypted cloud storage options for your convenience.

Motion Detection

Xuga X05A-K 4G Outdoor camera excels at tracking movement, allowing it to recognize when someone is in motion. Once activated, it starts recording and following the movement, sending you real-time alerts directly to your iOS or Android device whenever motion is detected.
