PROTECTION AND COMFORT AT THEIR BEST

NOVEMBER 2022

FOR WHEN THE
GOING GETS

TOUGH

Model No.
741

Paragon, one of the largest footwear manufacturers in India, was established in the year 1975. Producing above 140 million pairs of footwear annually, it has today an extensive global network that has more than 500 distributors, 50 exclusive outlets and thousands of retailers, catering to an ever growing clientele distributed over 14 nations.

In its four decades of journey, the company has set many precedents and procedures in the industry when it comes to quality, design innovation and technology. It is one of the first footwear companies in the country to have state-of-the-art ISO 9001:2015, ISO 14001:2015 certified factories across India, along with world class design studios. Constant product innovation, new ranges, trending styles along with a keen understanding of the market dynamics and foreseeing trends - these are the factors that have helped in the progression of the brand Paragon to become an internationally recognized player.

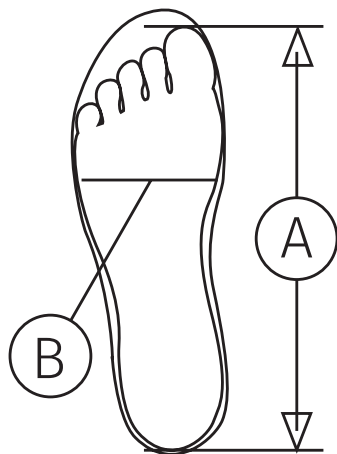

ISO 9001:2015
Quality Management System

ISO 14001:2015
Environmental Management Systems

Foot length is measured with the subject standing barefoot and the weight of the body equally distributed between both feet. The size of the left and right foot is often slightly different. In this case, measure both feet and the shoe size is based on the larger foot.

Mondopoint is based on the mean foot length (A) for which the shoe is suitable and the width of the foot (B) is measured in millimeters.

Shoe Width (B)

Mondopoint*	217	225	232	240	247	255	262	270	277	285	292	300	307	315
